Some quotes from my clients:

It is with great joy that I commend to you comedian Stephen B. My commendation is not some ambiguous slap on the back. This endorsement is very intentional. It flows from several factors.

For starters Stephen B provides as many LPM as any comedian I have seen. What is a "LPM," you ask? That is "laughs per minute!" Our congregation was in near constant laughter!

Secondly, he is not a diva. He came with no demands, yet with a genuine sense of servanthood.

Thirdly, at the end of 30+ minutes of non-stop laughing, he shared deeply personally devotional thoughts that gripped everyone. The story of loving his wife – who suffers from a car accident related brain injury – profoundly impacted us all. His candor in describing the family's economic challenges and miracles caused people to fully identify with him.

Lastly, his personal journey from a life of drugs and alcohol to Christ gave hope to the most destitute

We had four shows. Would you believe, I chose to sit through all of them, and laughed harder at each one!  
Should you have Stephen B? YES!

Hi Stephen – I want to thank you for your dynamic performance at our Rotary District 5220 conference. You have a wonderful sense of humor and your delivery is fantastic. It's so refreshing to have an evening of "clean" humor that creates belly laughs and laughter to the point of tears. I watched as fellow Rotarians became engaged in your performance and their expressions of joy were truly a sight to behold! What a gift you have for making the mundane an event, and the ordinary a source of delight. I have received several requests from attendees for your contact information because you were such a hit. A friend shared with me that you are the best presenter he's heard in all the years he's attended Rotary conferences! Thank you for making our Rotary District Conference a success! - Terri Amerio-Bell [Rotary District 5220](#) Conference Co-Chair
